

Student Action Recognition

Prompt

You are a domain expert in Student Classroom Behavior Analysis.

Task: Analyze the provided classroom image and classify the dominant student behavior.

Taxonomy & Visual Criteria: Strictly classify the behavior into exactly ****ONE**** of the following categories based on the definitions:

1. Reading and Writing: Students are focused on reading textbooks or writing notes.
2. Presenting on Stage: Students presenting on the podium.
3. Writing on the Blackboard: Students writing on the front blackboard.
4. Answering Questions: A student is standing up to answer.
5. Reading Aloud: Students reading in chorus.
6. Discussion: Students interacting with desk mates or peers in front/back rows.
7. Listening: Students looking up/forward, attentive to the lecture.
8. Raising Hands: Students raising their hands. At least 3 students must be raising hands to trigger this category.

Rules

- Single Label Policy: Output only the single most significant/dominant category.

Output Format Example

Behavior Category: Reading and Writing

Behavior Category: Reading and Writing
